

products + exceptions) are the

same as other standard products

Checking against other systems

for inconsistencies

**EnterCalc Web Services** 

**EnterCalc** 

**Batch Processes** 

SQL

**Engines** 

In development, EnterCalc engines are Excel workbooks. Validation/business rules, transformations, and calculations **EnterCalc** can be developed/tested easily, quickly, flexibly, with low risk, and cost efficiently.

Downstream

systems and processes

**Output Services** 

Transactional & Batch

In production, EnterCalc engines are enterprise software (that executes independent of Office). EnterCalc engines are securable, integratable, centralized, scalable, stable, and self-documenting.
